

LATIN POP SENSATION JIMENA SIGNS WITH UNIVISION RECORDS AND PREPARES HIGHLY ANTICIPATED NEW ALBUM

Talented and Beautiful Singer-Songwriter to Release Second Album in March 2005

Young and talented singer-songwriter has inked a record deal with Univision Records and is in the studio preparing her debut album with the label under the production genius of internationally acclaimed producer Emilio Estefan Jr.

Following a long year of intense promotional work, a myriad of shows and a great success in the Latin music industry, the new favorite blond of Mexico and the U.S. is back stronger than ever with an uncontrollable desire to share her new musical production, which is to be released simultaneously in Mexico and the U.S. on March 18, 2005.

The new album, titled "En Soledad" (In Solitude), is being produced by Emilio Estefan Jr., who also produced her debut album in 2003. "En Soledad" is comprised of soft ballads and a great collection of danceable tracks in the 'Cumbia Vallenata' format. The first promotional single is the title track, which was penned by Jimena herself in collaboration with Salvador "Clayton" Becerril. The album will be available in an optional CD/DVD combo package and will include special musical collaborations with artists such as Gloria Estefan, who co-wrote one of the tracks with her. Legendary 'Norteño' band Los Huracanes Del Norte also collaborates on a bonus track version of the title track, which they recently recorded in Mexico City.

"I am really excited about this project, because I get to work once again with Emilio and Gloria, and this time around my dream of working with Jose Behar also becomes a reality. This new album has more of an international sound without leaving behind the essence of who I am, of course. My goal is to continue sharing the beauty of Mexico and my native language through music," stated Jimena in a telephone interview from Mexico City.

With special showcases for media slated for March in Los Angeles and Mexico City, and an extensive promotional tour in Texas, California, New York, Florida, Puerto Rico and Mexico starting in February, Jimena promises to be one of the hottest recording artists of 2005.

Undoubtedly, "En Soledad" will give much to talk about, not only for its top caliber quality and sound, but also for its dynamic and talented artist, who co-wrote a vast majority of the songs included in the album. 2005 promises to be the year that catapults Jimena to international stardom.
